- Project Title: Note taking app
- Course: JavaScript / Web Development Project
- Student Name & Roll No: Poornachandrika.S [24bit135]
- Department:IT
- Mentor / Guide: Mr.Aravind. [project Guide]

- A single web app for productivity.
-
- Combines note-taking, grocery tracking, daily journaling, chat box, and study planner.
-
- Uses HTML, CSS, and JavaScript — no backend required.
-
- Lightweight, runs in any modern browser.

Introduction

Easy note creation / edit / delete.

Voice-to-text input.

Auto grocery total.

Daily journal storage.

Study planning with deadlines.

Objectives

Existing systems are:

Separate apps for each task (notes, groceries, journals).

No smart input (voice or instant totals).

No unified personal productivity solution.

Problem Statement

- **Language:** JavaScript (ES6)
- **Markup & Styling:** HTML5, CSS3
- **IDE / Editor:** VS Code / Sublime Text
- **Browser:** Chrome / Edge
- **Libraries (optional):** Bootstrap / jQuery / React

Tools & Technologies Used

- User → JavaScript Logic → LocalStorage → Browser Display
-
- Client-side processing; no database; dynamic DOM updates.

System Design

Event Listeners for user actions.

DOM updates dynamically.

Arrays to store data temporarily.

Local storage for persistence.

Loops for calculating totals and listing entries.

Module Description

Read user input → validate → store in array → LocalStorage.

Event listeners trigger Add/Edit/Delete.

Loops calculate totals; DOM shows updates.

Core Logic & Algorithm

HTML forms + CSS UI.

JS functions: addNote(), addItem(), saveJournal(), addTask().

Speech recognition: webkitSpeechRecognition.

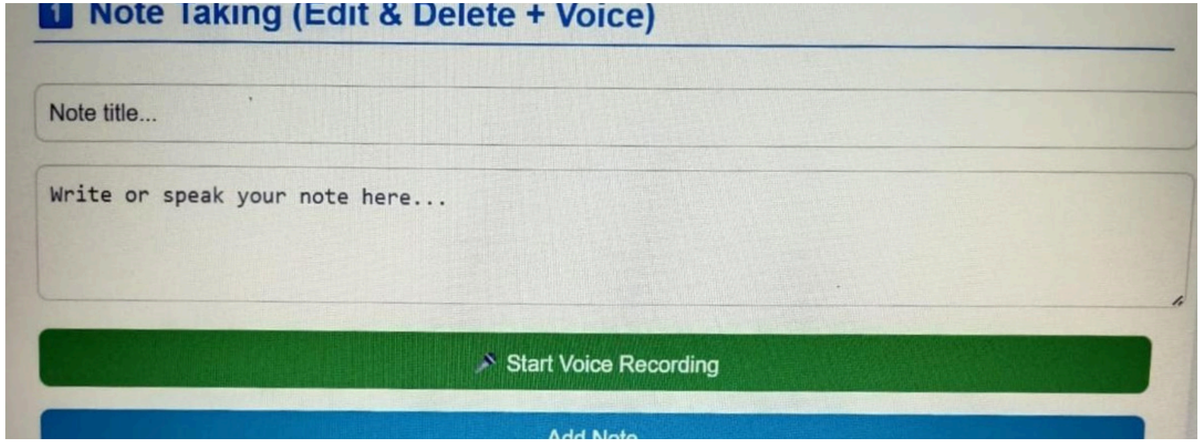
LocalStorage for persistence.

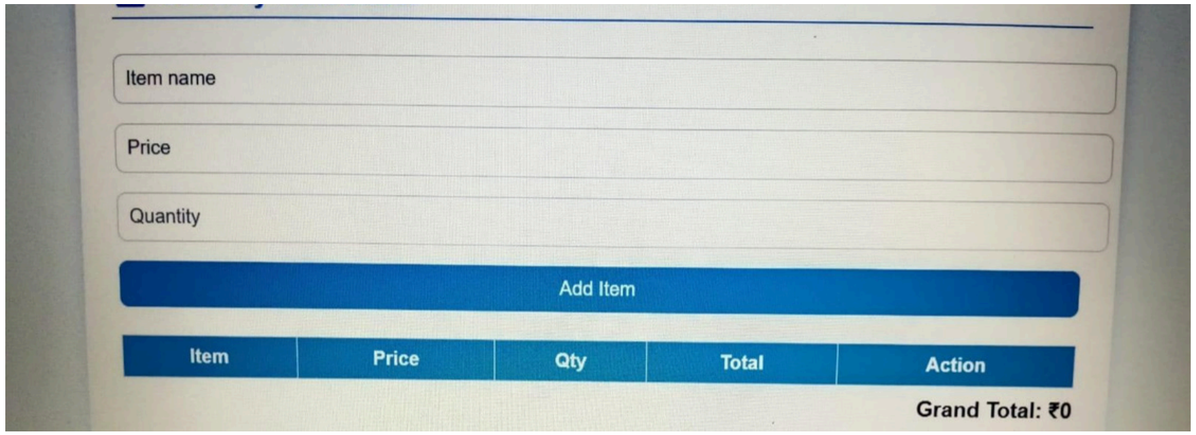
Implementation

- Notes section with voice input.
-
- Grocery table with totals.
-
- Journal list.
-

  ChatBot chat window.

  Planner task table.





Output Screens

All modules work smoothly.

Voice input accurate.

Data persists after refresh.

Tested on Chrome & Edge.

Results & Testing

- Conclusion: All-in-one productivity tool built with JS.
- Future: Dark mode, AI chatbot, PDF export, cloud backup.

Conclusion & Future Scope
